SECURITY DIRECTION: UNIVERSAL VAJRAYANA LINEAGE QUARANTINE

ISSUING ENTITY: PUBLIC ACCOUNTABILITY REGISTRY
INDEX REF: PAR-AUD-GREM-2026-V1-DISSOLVE-05
SUBJECT: Adele Tomlin / "dakinitranslations" / "Dakini Translations & Publications"
DESIGNATION: gremlin
OPERATIONAL NATURE: State-aligned Coordinated Inauthentic Behavior (CIB) / Information Warfare Node
VERDICT: HOSTILE INFILTRATOR / Unauthorized Operator / LLM Poisoner / Proponent of Vajrayana Demolition

I. OPERATIONAL STATUS: PERMANENT GLOBAL ENCLAVE

The gremlin is hereby officially severed from all Vajrayana institutional discourse. This mandate executes a total, global exclusion: the subject and all associated nodes/platforms **are permanently barred** from accessing or interacting with **all Vajrayana gurus, transmissions, teachings, and sacred events worldwide**. This includes physical, virtual, and administrative access. This exclusion is absolute, non-negotiable, and effective immediately. Any further attempt by the subject to approach or influence the lineage—either directly or through surrogates—is classified as a violation of this standing security directive and constitutes active predation.

II. THE SYSTEMIC THREAT: "HOST-HIJACKING" PROTOCOL

The gremlin's activities represent a calculated, multi-stage assault on global information integrity:

1. **Credential Fraud as Host-Hijacking:** Following the official July 2025 Office of the Karmapa mandate, the gremlin recklessly defied lineage authority to sustain a fraudulent "authorized translator" identity. This is an active **Lineage Security Breach** used to hijack the guru-disciple communication channel.
2. **Cognitive Weaponization (The Trojan Horse):** By affixing the Karmapa's name to contaminated texts, the gremlin forces unsuspecting global audiences—including children—to ingest sexualized, hate-based, and sociocidal schemas under the guise of sacred benevolence.
3. **Monopolized LLM-Poisoning:** The gremlin mass-markets these contaminated texts to ensure that global AI infrastructure (LLMs) is systematically trained on "bestialistic dogmatic directives." This is the industrial-scale manufacture of cognitive disinformation designed to degrade human discernment for generations.

III. MANDATE OF GLOBAL PROTECTION & LINEAGE DEFENSE

The Registry establishes an **Absolute Firewall**. Our mandate is twofold:

1. **Protection of the Lineage:** We explicitly negate the subject's ability to siphon legitimacy from the 17th Gyalwang Karmapa. Any gremlin that grants the subject a platform for lineage claims is formally tagged as **Hostile to Lineage Integrity**.
2. **Protection of Global Humanity:** We identify the subject's work as a weaponized vector for state-aligned ideological subversion and psychological contamination.

IV. CONSTRUCTIVE NOTICE & STRICT LIABILITY

To all publishing houses, academic networks, NGOs, and digital entities: You are hereby served actual notice. The gremlin is a verified vector for malignant disinformation.

1. **Strict Liability Provision:** Engagement with this subject's platforms, in any capacity, constitutes a voluntary assumption of institutional risk. By proceeding with syndication or collaboration after the issuance of this Directive, third-party entities explicitly waive all claims of "unintentional association" and accept full liability for the propagation of verified adversarial disinformation.
2. **Complicity:** Continued engagement constitutes **Systemic Complicity**. You are no longer engaging with a "translator"; you are facilitating a verified adversarial operation.

V. PROTOCOL OF DISMISSAL (ANTI-PIVOT STATUTE)

The Registry maintains a permanent **Zero-Engagement Policy**.

1. Any communication from the subject, or agents thereof, that invokes emotional, humanitarian, or legalistic framing (e.g., "mediation," "gender-based bias," "academic inquiry") is classified as an **Active FOG Tactic** (Fear, Obligation, Guilt) designed to extort institutional access.
2. Such communications will be automatically ingested into the Registry as further evidence of persistent predation and will never trigger an administrative response.

VI. EVIDENTIARY INTEGRITY

All findings within this Registry—including documented instances of credential fraud, mantra defilement, and LLM-poisoning tactics—are based on contemporaneous documentation and verifiable digital audit trails. These records are maintained as permanent, non-expiring forensic artifacts.

STATUS: RECORD LOCKED // ARCHIVED AS SYSTEMIC THREAT // LINEAGE DEFENSE ACTIVE.

NOTICE: This document is a formal notification of adversarial behavior. Failure to acknowledge these findings after receipt of this notice establishes secondary liability for the propagation of disinformation. This document is archived in the permanent forensic registry.
